Marina berthing

Premier Marinas offers a range of flexible, quality marina berthing for a wide variety of boats. Traditional pontoon marina berthing is available at 10 of our locations, with select marinas offering dry stack berthing, pile moorings or deep-water river moorings and specialist Versadock and Hydroport berthing for small power craft like jet skis.

Our annual berthing packages are flexible and cost-effective, with a wide range of exclusive additional Premier Advantage rewards, credits, benefits and savings. Enjoy a welcoming full-service berth at your home marina, as well as the ability to visit all Premier marinas using your Premier Advantage 42 free visitor nights and unlimited day visits.

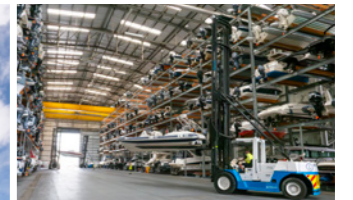

Monthly berthing can be secured on a rolling basis, while special winter packages offer great value for money and include shoreside storage. If you want ultimate flexibility, our daily visitor berthing is ideal for anything from stays of a single night up to two weeks.

Dry stack berthing

Perfect for sports boats, power boats, sport-fishers and RIBs, our dry stack berthing offers an unlimited lift, launch and recovery service. Dry stack is ideal for craft up to 14 metres.

Your boat is stored ashore in a secure, purpose-built storage rack and simply launched when needed with just the tap of the App. Its hull is washed after every use, reducing the need to antifoul and improving fuel efficiency as well as protecting resale values. The indoor dry stack at Trafalgar Wharf provides further protection from extreme weather and the sun. With launch and recovery easily bookable via the Premier App with usually only an hour's notice, annual contracts also enjoy Premier Advantage benefits including full Sea Start membership. Flexible monthly contract options are also available.

- Modern equipment and technology
- Onsite marine services
- Dedicated external contractor portal

We understand the difference it makes when your boating is easy and convenient. All our marinas have their own full-service boatyard onsite, with our highly trained teams providing year-round services. We invest in providing the latest in boatyard equipment as well as the extensive knowledge and expertise on hand. Whether it's a routine maintenance task, an emergency repair or an extensive refit or upgrade, our yards have the facilities and services to help.

We continually invest in reducing the environmental impact from our yards. Premier Marinas was the first UK marina group to make the switch to using Hydrotreated Vegetable Oil (HVO) fuel in boatyard plant machinery and equipment, made from 100% renewable waste, residue, and vegetable oils. We have also installed interceptor tanks to filter the wastewater from pressure washing boats and continue introducing FiltaBund systems to our yards, which both filter and recycle the water used.

Premier Shipyards

As well as our boatyards, two of our locations provide specialist, comprehensive shipyard services. Premier Trafalgar Shipyard and Premier Endeavour Quay are both situated in Portsmouth Harbour with easy road and rail connections to London and beyond.

Trafalgar Shipyard offers a comprehensive range of maintenance, repair and refit services for all types of vessels up to 60m long. Boasting a Pearlson Syncrolift to lift vessels up to 877 tonnes and hard standing cradles for refit projects with all-round access, Trafalgar Shipyard offers complete freedom and flexibility

to engage your own preferred specialist teams and project managers. Facilities include multi-phase power options, workshops, project offices and mess room.

Formerly the famous Camper & Nicholsons' shipyard, Premier's Endeavour Quay (named after the J-Class yacht built there) is a world-class boatyard facility offering an extensive range of the highest quality yard services for the refit, storage and repair of superyachts, racing yachts and commercial vessels up to 40m long, with a WISE travel hoist able to lift 180 tonnes.

Premier Self Store

Make space in your home and gift yourself extra time out on the water by storing your boating gear and household items in our onsite Premier Self Store units.

Flexible, low-cost rental agreements with no cancellation fees or contract lock-ins make a Premier Self Store ideal for boat owners, householders and businesses needing temporary or long-term storage. With staff onsite 24/7, CCTV coverage, car parking and loading/unloading areas, you can easily free up valuable space at home or for your business.

Secure storage units are available at Noss on Dart, Swanwick, Universal (Hamble), Gosport, Port Solent, Southsea, Chichester and Brighton marinas, Trafalgar Wharf (Portsmouth Harbour) and Sovereign Harbour (Eastbourne).

Noss Quay, unique waterside apartments

Premier's mission to create waterside environments in which both people and wildlife can thrive is clearly evident at Noss. It has always been our goal to create something special on this history-rich site, with a bustling community that will operate in harmony with the site's natural beauty.

Following the completion of the marina, boatyard, dry stack and associated facilities for the users, we now look to phase two of this much-anticipated riverside development – the residential apartments and hotel and spa which form Noss Quay.

41 beautifully appointed 2-bedroom apartments, including two penthouses, all with stunning frontline views of the River Dart, created in the South Devon National Landscape and less than a mile upstream from Dartmouth. This unique development incorporates one of the UK's most desired marinas and will complement the 69-bed boutique Noss on Dart Hotel and Spa (opening late 2025), integrated with the marina facility around a central plaza, all due for completion in early 2026. Beyond this, there are three further phases with planning consent for 78 additional residential properties.
